

# JAN CHESTER PEREN

Full-Stack Developer | Secure Software Development | Enterprise Systems

Batangas, Philippines | janchesterperen@gmail.com | +63 946 032 0576 | linkedin.com/in/jcaperen | jcperen.com

## WORK EXPERIENCE

---

### Secure Development Engineer Lead

Sophie's Information Technology Inc., Lipa City, Batangas

September 2025 – Present

*Promoted from Secure Development Engineer (April 2025 – September 2025)*

*Promoted from Software Development Intern (January – April 2025)*

- Developed and maintained secure RESTful APIs using C# .NET Web API, EF Core, and MSSQL to support HR operations across multiple departments, improving reliability and data accessibility.
- Architected backend systems, implementing OWASP Top 10 safeguards and validating security through SonarQube and OWASP ZAP tests for business applications, enhancing secure development practices.
- Identified and resolved 4 critical security vulnerabilities through proactive testing before deployment.

## PROJECTS

---

### Team Lead / Full-Stack Developer | Government HRMIS / IHRMIS

- Directed a development team in building a secure HRMIS that integrates IHRMIS and legacy systems, centralizing 1,000+ personnel records with role-based access and audit logging improving accountability.
- Built a secure ASP.NET Core Web API backend and Blazor WebAssembly (Standalone) frontend modules, supporting end-to-end HR workflows for multiple departments and offices.
- Automated HR data processing and reporting through optimized APIs, reducing manual encoding and report preparation time by 30–40% across multiple HR units with improved operational efficiency.

## EDUCATION

---

### BS in Information Technology Major in Business Analytics (2025) – Magna Cum Laude

Batangas State University NEU Alangilan Campus, Alangilan, Batangas City 4200
